 Downey, CA

## Experience

### Contract Website Designer

#### Asurge Digital

December 2022 - PRESENT

- Created visually engaging websites for small businesses and individuals using Figma
- Developed wireframes, prototypes, and high-fidelity mockups to communicate design concepts and ensure the user experience was intuitive and efficient.
- Reviewed designs with clients, used their feedback, and made changes until the designs met the client's needs.
- Stayed up-to-date with the latest design trends and technologies, and integrated them into designs where appropriate.

### Freelance Graphic Designer

June 2016 - PRESENT

- Synthesizes client vision, desired aesthetic, and product requirements
- Created logos, flyers, and marketing material for Vivian's Mobile Notary Services
- Created Logos and flyers for Biola University's Computer Science Department
- Rebranded Light and Life Church's Submerged Youth Ministry
- Branded Downey High School's "Think With Ink" writing campaign

### DevOps Engineer Intern

#### FORMELIFE

October 2022 - November 2022

- Assisted in automating DevOps pipeline to enhance performace of deployments
- Utilized Git Actions to build workflows for multiple repositories

### UX / Product Designer (Part Time)

#### CoCo - Connecting Communities

August 2021 - PRESENT

- Collaborates with user researchers to identify core user needs and creates user personas
- Spearheads the product design process and unifies the company mission and user needs with the product design vision
- Creates design systems and dictates user interface design decisions
- Develops and executes usability studies with the target user group and, using those findings, develops insights and iterates on the existing design

### Business Analyst & Developer Intern

#### Samaritan's Purse International Relief

May 2021 - August 2021

- Collaborated with business analysts, developers, and project managers to plan, design, and build a mobile web application within a span of 4 weeks
- Assisted in building a prototype to present to stakeholders using Angular and Typescript
- Aided in revolutionizing a company procedure database by creating a user-friendlywebsite using SharePoint

### Student UI/UX Designer

#### National School Project

November 2018 - April 2019

- Drafted User Interface prototypes for the National School Project Website
- Worked on drafts for the National School Project app using Adobe XD
